

## 19"/3U, 19"/6U or 19"/9U fiber splice distributor

Fitting available for conventional splices.  
Alternative: ribbon splices

OSIRISONE UHD 19"/9U FO Splice Distributor

### OSIRISONE UHD 19"/3U Fiber Splice Distributor for 3 slide-in modules

Installation depth: 4m50m  
up to 288 fibers in LC and LSH(E2000) connection technology  
to accommodate up to 3 OSIRISONE UHD splice inserts

### OSIRISONE UHD 19"/3U FO splice distributor short for 3 racks

Installation depth: 330mm  
up to 288 fibers in LC and LSH(E2000) connection technology  
to accommodate up to 3 OSIRISONE UHD splice inserts

### OSIRISONE UHD 19"/6U FO splice distributor for 6 racks

Installation depth: 450mm  
up to 576 fibers in LC and LSH(E2000) connection technology  
to accommodate up to 6 OSIRISONE UHD splice inserts

### OSIRISONE UHD 19"/9U FO splice distributor for 9 racks

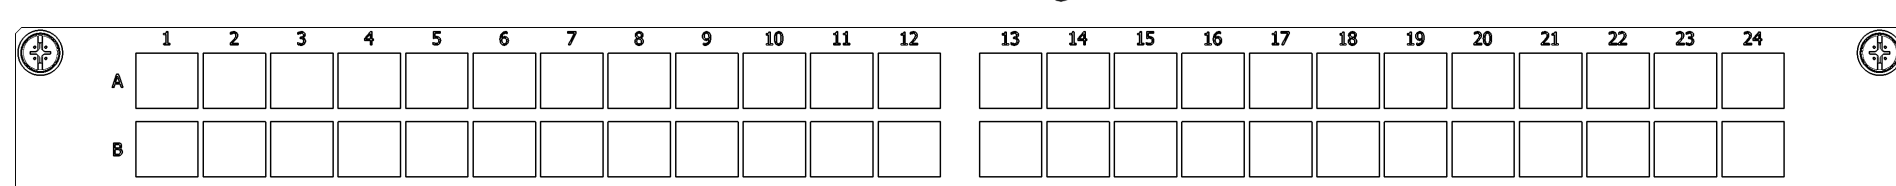

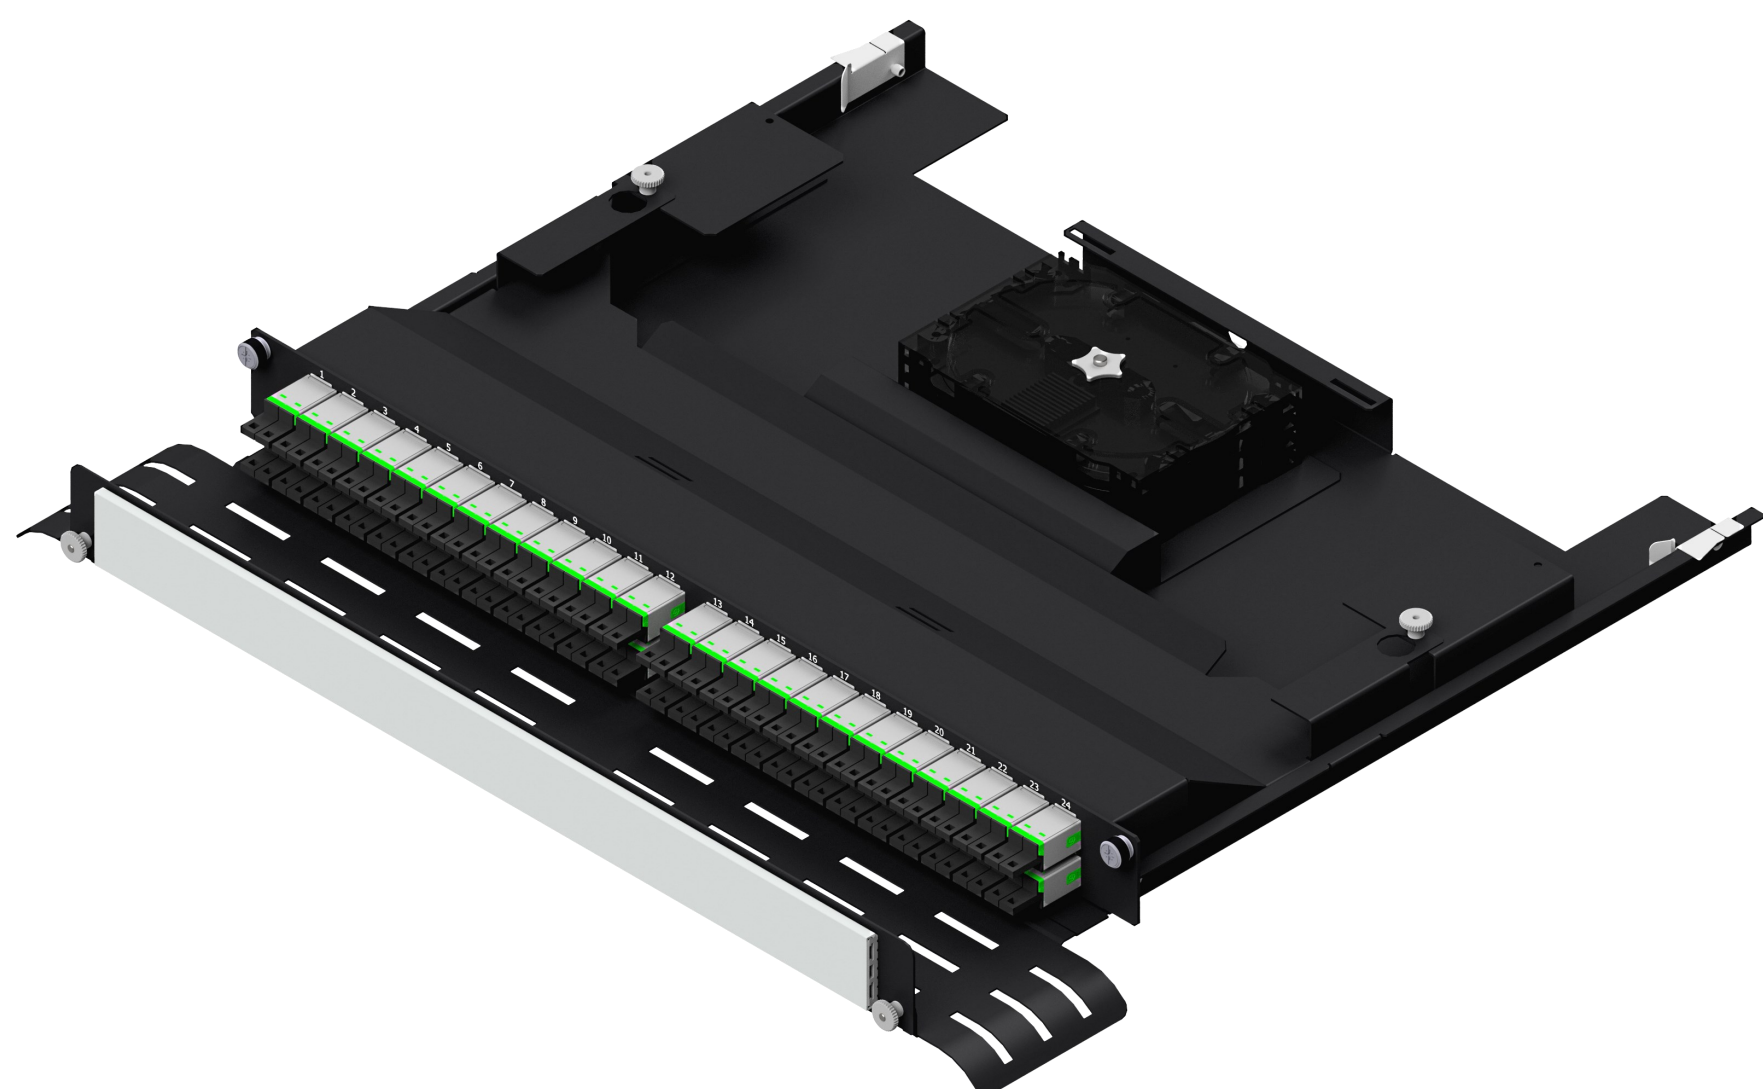

Installation depth: 450mm  
up to 864 fibers in LC and LSH(E2000) connection technology  
to accommodate up to 9 OSIRISONE UHD splice trays

### Features

- Termination of up to 576- or 864-fiber fiber optic cable directly in the enclosure (Only for 6U/9U chassis)
  - Up to 96 fibers per splice tray
  - Cable grommet guide to the splice trays in bending radius limiting tubes
  - Cable entry at top or bottom optionally straight or angled possible (depending on model)
  - Labeling field for individual labeling (Removable for easy patching and cleaning of internal connector end surfaces)
  - Pull-out plug-in units with integrated drop-out protection
  - Splice inserts prepared ready for splicing at the factory: Couplings mounted (snap-in)
- Pigtails plugged on, inserted into splice cassette and set down Incl. splice cassettes, splice holder crimp, crimp splice protection

#### OSIRISONE UHD splice tray 48xLSH(E2000) duplex

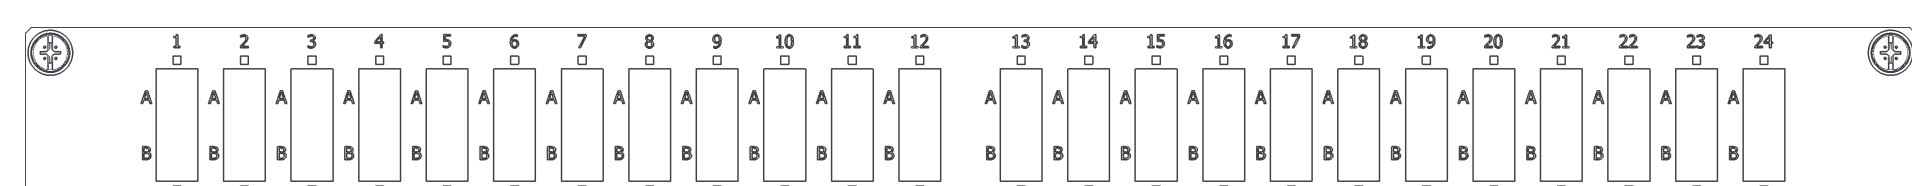

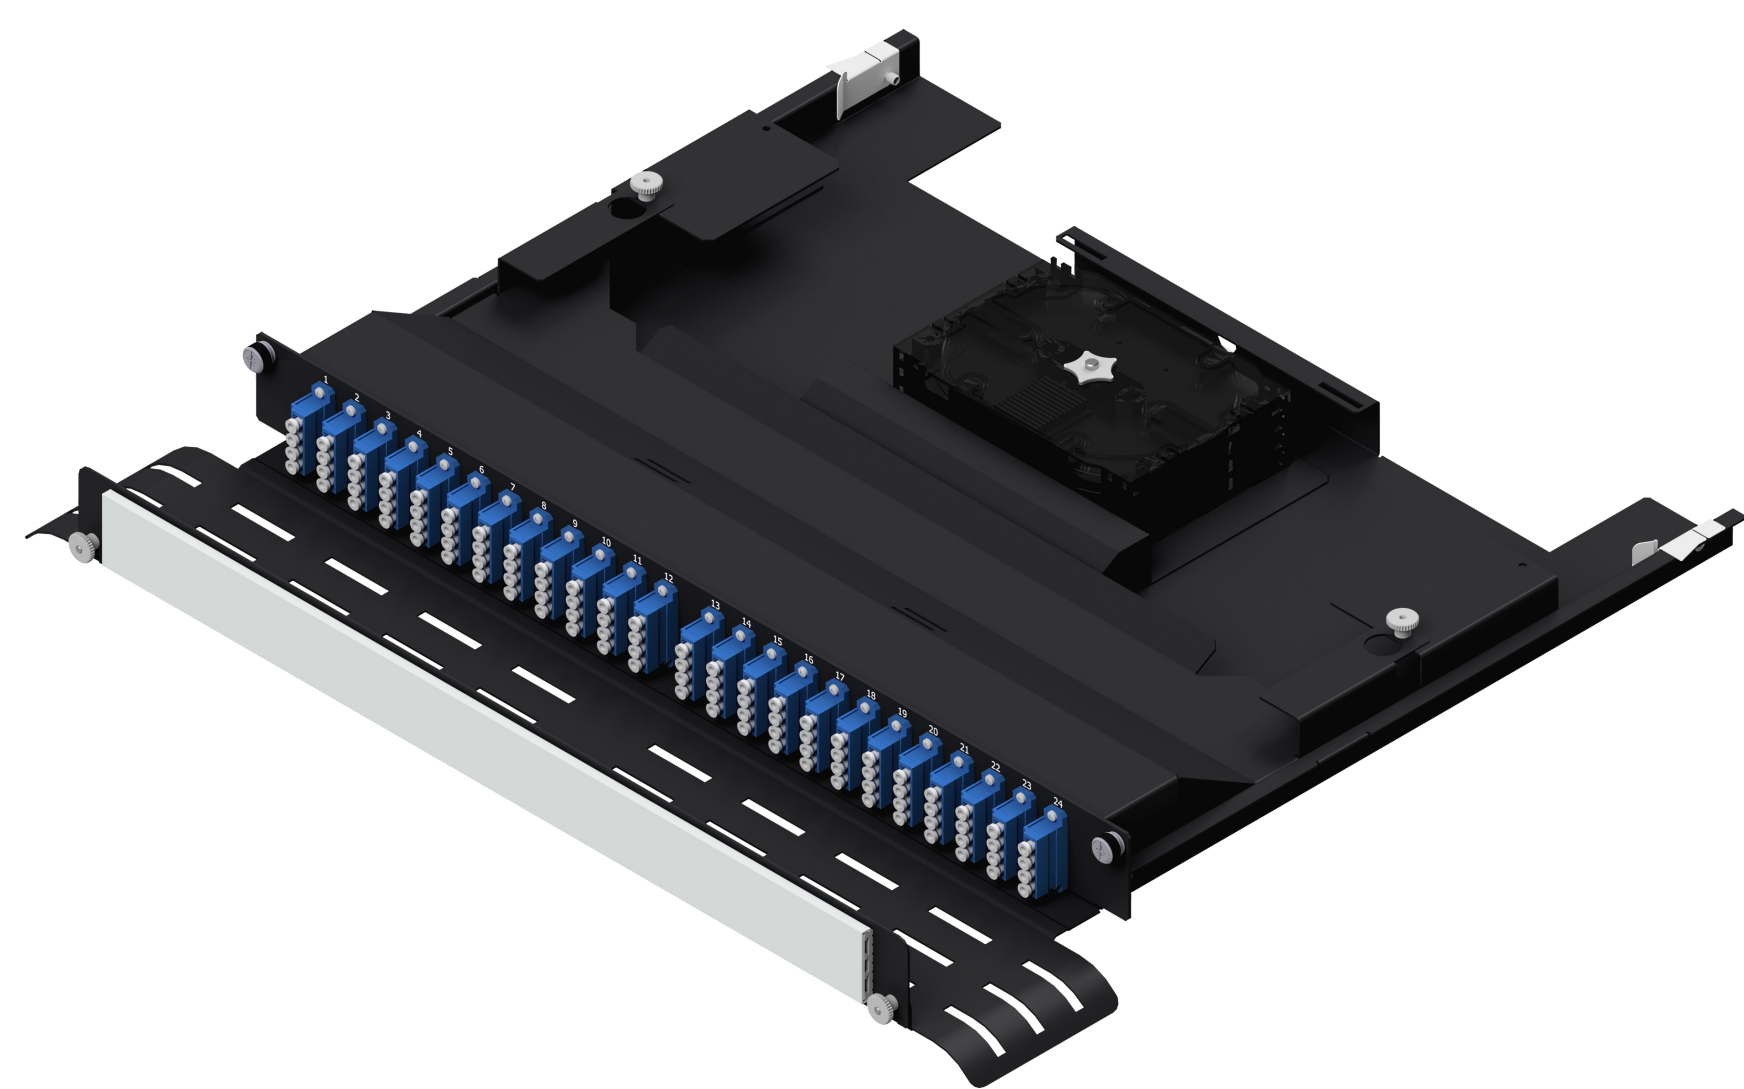

Consisting of drawer, couplers, pigtails, splice cassette, splice holder and crimp splice protector.

Layout front panel 48xLSH(E2000)-Duplex

#### OSIRISONE UHD splice tray 24xLC Quad

Consisting of drawer, couplers, pigtails, splice cassette, splice holder and crimp splice protector.

Layout front panel 24xLC-Quad

All housings are assembled in the factory at the production site in Irschenberg/Upper Bavaria, ready for assembly according to customer specifications, and quality assured.
